ABOUT OUR FOUNDER

Relief Products was created in 2016 by its founder **Scott Smalling** who has spent the last 25 years in the furniture and bedding industry. Smalling is recognized as an innovator in the space and has built several successful companies due to his passion for superb quality, innovation and offering products at fair prices.

Relief Products. is tireless about creating and innovating new products which are considered best in class in the industry. Current offerings include commercial mattresses, bed frames, pillows, hard to find low profile bed sheets and a wide variety of furniture that includes steel beds, workspace solutions, living spaces furniture and a wide variety of underbed and traditional storage options. One of Relief Products most unique products is its Emergency Relief Bed which is a go to product for emergency and inclement weather shelters.

Relief Products was created in part to help support Relief Bed International. Relief Bed International was founded in 2015 and is a 501c 3 Non-profit which supplies beds, pads and sleeping mats to disaster relief projects worldwide and in support of homeless shelters in the USA. To date Relief Bed International has distributed/donated more than 35,000 beds, pads and relief aid directly and in cooperation with its corporate partners. Most recently, Relief Bed International donated 1,000 beds to support humanitarian efforts in the Ukraine and also donated 500 beds to support recovery efforts from the devastating earthquakes in Turkey and Syria. For more information about Relief Bed Internationals global work please visit www.reliefbed.org

Thank you for your interest in Relief Products llc. We will work hard to earn your business and work even harder to keep it.

MATTRESSES & ACCESSORIES

MATTRESSES | PILLOWS | SHEETS | TOWELS

Sleep is the #3 biological need so having good quality mattresses is critical to those who are experiencing a challenging time in their lives or who are just trying to get a good nights rest. During sleep the brain stores new information and gets rid of toxic waste. Nerve cells communicate and reorganize, which supports healthy brain function. The body repairs cells, restores energy, and releases molecules like hormones and proteins. Your mental health can be negatively impacted by a lack of sleep although with good sleep it can promote better mental health.

Relief Products innovations team has worked very hard to create a unique and extensive line of mattresses that meet the requirements of most any commercial application.

SHELTER MATTRESS

180 THREAD COUNT

Sheets and pillowcases are designed to withstand the intensity of today's commercial laundries. Many imports are unable to withstand the rigors of institutional laundering and tear, pill, change shade, and shrink excessively as a result. Don't lose money by buying low-cost goods you need to replace frequently!

THE PROMISE

From American cotton fields to you, we promise to keep elevating and keep our customers at the heart of our company. We stand for excellence, artistry and refined detail.

Our manufacturing partner currently specializes in manufacturing and distribution of the highest quality bed and bath linens to the hospitality, healthcare and institutional markets. They finish millions of yards of fabric each year at their bleachery and cut and sew this fabric in a 250,000 square foot manufacturing and warehousing facility.

Our lines of domestic and imported towels are also engineered for long term value and responsibly sourced. We are the value leader in the institutional market and are proud of both our history and present.

TRANSITIONS

A mix of laminate and steel soften the aesthetics of the Transitions Series to provide the next level of warmth and comfort. Transitions not only looks good, but it functions like a champ. The steel elements protect the most commonly damaged corners of each product, adding life to the furniture pieces.
